ISP Form Submission Tutorial

Note: To make form submission quicker and easier please prepare your images or PDF files or scans of your internet bills in advance for easy access. If your student was enrolled at the beginning of the school year you will need your bills that show the <u>service dates</u> for January - May. If your student was a late start you will need the bills starting with the first month they were enrolled through May's bill.

- If you are submitting the bills on your phone you will want to take a photo of your bills and save them on your phone or download copies of the PDFs or scans of the bill to your phone before you start the form, so they are easy to access as you fill out the form.
- If you are submitting the form through your computer, you will want to access and save the PDF's/scans or photos of your bills before you start the form, for easy access.

NOTE: Your bill should include your **name**, **address**, **dates of service and 'internet'** shown in the services. *TIP: Use the <u>SERVICE DATES</u> on your bill to determine the month to upload, NOT THE BILLING DATE or when the bill was due*.

• You will also need one of your students' ID numbers and your Family ID number for the form. Please use this link to learn how to find that information or you can ask your Adviser for assistance with this <u>https://www.help.k12.com/s/article/How-To-Find-Your-Student-ID-in-the-Parent-Portal</u>
